CEO WELCOME

I am pleased to present the AusRAIL 2022 program.

We are incredibly proud of the program we have prepared for this year's conference. As we come together on the doorstep of the iconic Cross River Rail project, the event will provide a timely opportunity to discuss the many major projects underway across Australia and New Zealand. We will also discuss the key issues facing our industry, from technology and innovation to workforce development and sustainability.

AusRAIL 2022 will provide the chance to reflect on the many successes of the year during a time of growth, change and unique challenges and opportunities for the rail industry. We look forward to welcoming industry leaders, technical experts and key decision makers to be part of the discussion.

We also have a fantastic industry exhibition and social program planned as part of AusRAIL 2022, designed to help you maximise your business development and networking during the event. This will be a great opportunity to connect with colleagues, suppliers and friends as we prepare for another busy year in rail in 2023.

I look forward to seeing you in Brisbane for AusRAIL 2022.
